Easy to create

Let everyone develop and manage AI models with step-by-step guidance and simplified management and governance.

Easy to connect

Reduce time spent developing by easily applying AI to your data sources with a library of more than 500 connectors including for Microsoft 365 and Dynamics 365.

Easy to extend

Give developers the tools to quickly extend their low-code apps using built-in connectors to Azure APIs.

AI Builder

- Artificial Intelligence
- Built-in
- Custom models
- Automatisering af processer
- Forudsigelser i forhold til data

Dataverse

Dataverse har standardtabeller, der dækker typiske business scenarier, men du kan også oprette brugerdefinerede tabeller, der er specifikke for din virksomheden og udfylde dem med data ved hjælp af Power Query.
